Who Are We?

Trust for Youth and Child Leadership (TYCL) is a transnational, youth-led, non-profit organization based in India and the US. TYCL aims to nurture positive change in youth, children, families and their communities through safe, inclusive, participative, and innovative leadership models. TYCL is an organization with “Special Consultative Status” from the Economic and Social Council, United Nations since 2018” which enables local youth to participate and raise social and environmental issues in the United Nations.

Why Child Leader Awards ?

- Children are very active participants of positive change in family, schools, and community. Children should be treated as assets of any society as highlighted in UNCRC. There are many highly skilled children who are taking action against the violence committed against the humanity and environment.
- However, often these children are not recognized in most of the mainstream leadership arena. Meanwhile, violence against children* is also escalating day by day in Puducherry, Cuddalore, Villupuram and Chennai. This situation requires child right based sensitization among all the stakeholder of Puducherry, Cuddalore, Villupuram and Chennai.

Objectives of Child Rights Day

- To sensitize, spread, promote and communicate about Child Rights to Puducherry and its bio-regions.
- To recognise and promote the children who are taking action against injustice within their communities / School / Home.
- To acknowledge and recognise child-friendly stakeholders of the society.
- To promote Child Friendliness in Puducherry, Cuddalore, Villupuram and Chennai.
